13 The Court is in receipt of the parties' joint discovery letter regarding electronic data, filed
14 November 27, 2007. (Doc. #156.) In the letter, Plaintiff argues that Defendants produced hardcopy
15 sales reports that were not created in the regular course of business. Plaintiff now seeks production
16 of the electronic data relating to the sales of the accused devices in the electronic format that the
17 information was created and maintained. Defendants respond that they will produce the requested
18 information by November 29, 2007. Pursuant to Federal Rule of Civil Procedure 34, a responding
19 party who produces electronically stored information for inspection must produce the information as
20 it is kept in the usual course of business, unless the parties otherwise agree. Accordingly,
21 Defendants are ORDERED to produce the requested information in the electronic format that it was
22 created and maintained. Defendants shall produce the information by November 29, 2007.
